### Tentative Plan For Farm Debt Needs Studied

CALGARY, June 25.—(CP)—A tentative plan for a practical solution of the farm debt problem of the three prairie provinces was discussed by representatives of the five leading Alberta farm organizations in conference with Alberta cabinet ministers in Calgary yesterday. The proposals will be considered at a Manitoba-Saskatchewan-Alberta debt conference to be held in Saskatoon, Sask. June 29 and 30.

The conference was called by a committee of Alberta farm organizations with a view to arriving at a united western decision on debt adjustment problem. The representatives of the five prairie provinces and the provincial farm organizations will attend the Saskatoon conference. The three provinces arrive at the conference with a view to submitting the proposals to be submitted to the federal government.

**MAYNARD PRESIDES**  
Hon. Lucien Maynard, minister of municipal affairs, presided at the conference in Calgary yesterday. It was also attended by Hon. D. B. MacMillan, provincial minister of agriculture, and Hon. Solon Low, provincial treasurer. Farm organization representatives were J. E. Brownlee, K.C., United Grain Growers; Robert Gardner, United Farmers of Alberta; George E. Brown, Alberta Wheat Pool; E. W. Brundage, Alberta Federation of Agriculture; and William Havelock, Alberta Farmers' Union.

The first meeting in connection with the debt problem was held in Edmonton on May 18. A committee, headed by Mr. Maynard as chairman, was set up to prepare a submission for the inter-provincial conference in Saskatoon.

The report of the committee was considered at the meeting in Calgary yesterday. It was decided that Alberta will be represented at the Saskatoon conference by the heads of two delegates from each of the five farm organizations and members of the provincial cabinet.

**WINNIPEG, June 25.—(CP)—**Premier John Bracken; Hon. S. S. Garson, provincial treasurer; Hon. L. Campbell, minister of agriculture, and representatives of the Manitoba Federation of Agriculture, the United Grain Growers, and the Manitoba Union of Municipalities will attend the Prairie Farm Debt conference opening at Saskatoon on Monday.

### 15 Are Arrested In British Honduras For Aid To Enemy

LONDON, June 25.—(CP)—Fifteen reported leaders of the British Honduras movement have been arrested by military authorities in Belize, British Honduras, after discovery of "an organization which has been rendering active assistance to the enemy in the Caribbean area."

### Raid Victims Is Farmer Need

VICHY, June 25.—(AP)—Fifteen French civilians were killed and about 30 injured in a recent R.A.F. raid on Dunkerque, Vichy authorities said yesterday.

### Give Out The Facts

That there was miscalculation somewhere in the Libyan business is clear enough. That there was bungling is not so certain. The terms are not synonymous, though the results may be the same. Many a man who never bungled a business transaction has gone bankrupt because he made a miscalculation, as to where he should put his money.

It may be that somebody in London or in Washington made just that mistake. Hampered as the Allied Governments are by scarcity of some kinds of supplies, and still more by scarcity of ships, equipment may have gone to Russia or to the Far East which was needed last week in Libya. It may also be that the equipment that would have turned the scale is lying on the bottom of the Mediterranean.

What is required is a clearing up of the whole sorry affair in North Africa, and the sooner the better. An official statement, it is to be hoped, will be made at London with as little delay as possible, setting out not merely the record of recent events but the record also of the months which preceded them. It is not until the preparations should have been made to meet the blow Rommel was gathering strength to deliver.

Pending this statement, the less guessing about the causes of the calamity the fewer errors will be made and the less damage done. A little delay in the matter of much harm may result, from a hue and cry for scapegoats. The arm-chair critic will show good sense, and contribute something to the prosecution of the war, but without judgment until he knows not only what happened around Tobruk but why it happened and whose fault it was that it did happen.

### The Bills Will Be Paid

The Canadian taxpayer will be spending his off hours doing some work on the Italy budget for a week or so. For obvious reasons his attention will be given particularly to the complicated plan by which his income tax has been raised to a figure he may not clearly discern but dreads to think about. One thing the budget has done is give Canadians a closer look at taxation. If we did not know it before, we know it now.

What is going to be the reaction? Immediately of course, there will be for the taxes and tax-imposers generally and severely; it is always so when a new tax measure or a whole list of new measures is thrust upon the more or less placid citizen of life. But when this intensive mood of protest has passed? Are we going to dig up as resolutely as we have been to find war effort limited only by the physical capacity of the nation? We cannot have that kind of a war effort unless we are willing to pay for it.

To these questions there are only one answer. Canada isn't a quitter. We sacrifice men in the line of duty, and we have 60,000, with no thought of relaxing our drive. Money is of no value compared to men, and plainer living for civilians is a trifling inconvenience as compared to the hardships our fighting men are now enduring and the sacrifices they risk.

There will be grumbling about the new taxes. Of course, there will be only human. But when the first shock has passed the staying quality of our people will show itself, and we will be for the needed loans will be made. Hitler will never be able to sneer at Canadians as pikers on the financial front—or any other front.

### A Fine Record

If he was hit harder last year than he had ever been hit before, the Canadian taxpayer is entitled to draw a considerable amount of satisfaction as he scans the record of what he achieved, and to gain confidence that he will be able to carry whatever financial load the war effort may impose upon him in future. He now knows the load will be far heavier, but the figures show that he is able to bear it costlessly borne and that the bulk of the war outlay is being met out of war income.

During the last fiscal year, which ended March 31st, the Dominion collected revenue amounting to \$1,481,000,000. This was \$60,000,000 more than in the preceding year, an increase of approximately 70 per cent. The sum was nearly three times the post-war yearly revenue. Of this altogether unprecedented sum, \$360,915,000 was tax-money, the balance coming from revenue-earning assets.

The ordinary expenditures for the year ran nearly \$144,000,000, and the war expenditures to \$1,351,533,000, a total of \$1,496,533,000. The difference of \$413,466,000 was the surplus. Of this, \$61,000,000 was the surplus, the balance of which had to be added to the net national debt by borrowing. Thus of the whole amount of expenditure for non-war purposes, 78 per cent was paid out of the revenue for the year, and only 22 per cent had to be added to the debt.

This is a record that leaves no room for misgivings, either as to the financial policy that is being followed or as to the

ability of the nation to stand the strain. The feeling of confidence must be strengthened when the borrowings of the year are taken into account.

The Government of course borrowed far more than the \$413,000,000 difference between what the treasury took in and what had to be paid out as expenditure. The total borrowings in fact ran to \$2,424,000,000. Of this total \$1,834,000,000 was borrowed from the public in the form of loans, and \$585,294,000 through the sale of war savings certificates and stamps. The additional borrowing had to be done to finance British purchases in Canada, to redeem outstanding Government bonds, to buy in Canadian National Railway securities, and to finance exchange between the sterling and the dollar block.

These items cover advances and investments, not expenditures, but the money had to be secured from the same pockets and through the same channels. Thus in addition to paying outright 78 per cent of all the Government spending during the year, the public supplied \$1,868,000,000 of loans to meet the deficit and carry through these other operations.

In taxes and loans the nation thus turned over to the Government as much as year no less than \$3,228,915,000. This Mr. Lloyd correctly interprets to "reflect the willingness of Canadians to do what is necessary in financial matters in order to resolve this conflict in complete victory."

The United States navy department announces that the Japanese have landed forces on Kiaka Island, apparently the object of establishing an air or naval base there. This is 270 miles from the nearest this continent than Attu. It is 585 miles from Dutch Harbor. This means that the Japanese fighting range from that base, and that the bombers attacking Kiaka must do so without fighter protection. As the whole string of the Aleutians is in the hands of the Japanese, the difficulty of outlying the invaders is apparent. It may take the whole summer to clear the fog—so to blot them out of Attu and Kiaka.

### Looking Backward

From The Bulletin Files

#### 1892—50 Years Ago

"ATTEMPT TO STEAL THE LAND OFFICE"  
Concluded From Yesterday  
In view of the assurance telegraphed from Ottawa—there being no desire to purchase the land business of the district or the establishment of a branch office in St. John's—when Inspector Percy informed Mayor McCue, at noon, that he had been instructed to proceed with the removal of such office as books were necessary for the transaction of business, no objection was taken.

At about one o'clock Inspector Percy drove to the land office accompanied by four policemen. The land office was located in the old and forest ranger Johnston removed a portion of the books in the presence of the mayor and about 50 citizens.

What books were taken and what lot, of course, was not known. The books were taken away from the land office, and the books were taken away from the land office, and the books were taken away from the land office.

He mentioned one that had, and it was pointed out. Before the books were taken away from the land office, the books were taken away from the land office, and the books were taken away from the land office.

Considered as a whole, and in connection with the assurances received from Ottawa, this was a most satisfactory result. The books were taken away from the land office, and the books were taken away from the land office, and the books were taken away from the land office.

#### 1902—40 Years Ago

About 300,000 acres of land have been homesteaded in the Edmonton district during the last year.

Roads are drying up but the mud holes are still there. The roads are drying up but the mud holes are still there. The roads are drying up but the mud holes are still there.

The parks commission is asking the city to secure sufficient area in the Great Ravine and the Rat Creek Ravine for the construction of beautiful park drive ways through these scenic spots.

#### 1912—30 Years Ago

Buffalo between 15 and 20 people were drowned when a steamship deck collapsed at Grand Island in the Niagara river.

#### 1922—20 Years Ago

More than 500 carloads of grasshopper locusts have been used in Alberta this season in the fight against the pest.

A police ruling brought into effect Friday prohibits that Edmonton filling stations may not serve gas to anyone who is not a resident of the city.

The appeal court lifted the injunction which prohibited the county council from levying a tax to finance the change of the name of the city of Edmonton to Edmonton.

The town of Raymond has been appointed commissioner of labor for the province.

#### 1932—10 Years Ago

Geneva: France promptly rejected the Hoover plan to provide armaments by order. The price of a reconcentration of war debts at the London conference was \$1,000,000,000.

Brest: Divers have recovered \$10,000 of gold from the sunken steamship Egypt, and hope to recover the rest of the treasure.

The loss of Raymond is operating a scrip system.

### Today's Text

O death, where is thy sting? O grave, where is thy victory?—1 Corinthians 15:55.

To die is landing on one's knees. There follows never break nor tempo; rather, Ere well, we feel the spirit's presence.

—Sir Samuel Croxall.

### SIDE GLANCES

By Galbraith

Is There Too Much Sunshine?

Is Charles HERBERT HUSTIS.

Some thirty-five or six years ago I read a paper to the Alberta Medical Association on the effect of some sunny days upon people living on the western prairies in which, among other things, I called attention to the harmful effects of exposure to the direct rays of the sun during the periods of time in the Pacific Coast, or even in the Eastern Coast, where the sun is so much more "screener" by the atmosphere.

At the time of the presentation of this paper, I was in Toronto, the Medical Health Officer advised vociferously to "ease into the sunlight" and to "wear a break" by slowly eliminating the sunlight, otherwise they were likely to return just as tired as when they went away.

In my paper I called attention to the extensive studies that had been made in recent years upon the beneficial and the harmful effects of sunlight upon the bodies of work animals.

It is known that, generally speaking, the sun is good for the people who live permanently in sunny climates. It has pigmented the skin of the white American Indian as it has of all peoples who live in sunny climates.

On this continent, the sun is doing what it can in its own way to give life to the people who live in sunny climates.

But, for the present, the people meeting in Edmonton you will see few white heads among the men and women who are frequently of the people who live in sunny climates.

The anthropologist, Albert H. Huxley, says that three-quarters of a century ago, a Canadian who moved to Texas, and who was a white man, found that the sun was a break by slowly eliminating the sunlight, otherwise they were likely to return just as tired as when they went away.

### Is There Too Much Sunshine?

Is Charles HERBERT HUSTIS.

Some thirty-five or six years ago I read a paper to the Alberta Medical Association on the effect of some sunny days upon people living on the western prairies in which, among other things, I called attention to the harmful effects of exposure to the direct rays of the sun during the periods of time in the Pacific Coast, or even in the Eastern Coast, where the sun is so much more "screener" by the atmosphere.

At the time of the presentation of this paper, I was in Toronto, the Medical Health Officer advised vociferously to "ease into the sunlight" and to "wear a break" by slowly eliminating the sunlight, otherwise they were likely to return just as tired as when they went away.

In my paper I called attention to the extensive studies that had been made in recent years upon the beneficial and the harmful effects of sunlight upon the bodies of work animals.

It is known that, generally speaking, the sun is good for the people who live permanently in sunny climates. It has pigmented the skin of the white American Indian as it has of all peoples who live in sunny climates.

Comopolitan Club's Cigarette Fund Game Saturday

1,000 Walks For Paul Wamer

Braves Rise Up And Slap Down St. Louis Cards Twice

BOSTON, June 25.—(AP)—St. Louis Cardinals National League pennant hopes suffered rude jolt Wednesday when Boston Braves pulled out a prolonged losing streak by sweeping a doubleheader from the second-place Cardinals 6-2 and 3-1.

Paul (3,000-hits) Wamer collected the 1,000th pass of his 17-year career off Hiram Rice in the sixth inning of the first game.

The Cardinals now have lost six of their last seven starts. Boston had lost 17 of 19 games.

Mad Russian Clouting Apple

Lou Novikoff Appears To Have Regained Batting Eye

PHILADELPHIA, June 25.—(AP)—Lou Novikoff threw away his clippings—and his batting average soared 91 points in less than two weeks. He's no longer the Mad Russian.

The hokey Chicago Cubs outfielder was batting an anemic .185 when the club left Chicago for its swing through the National League's eastern cities.

Yesterday, he pounded a home run and a single in five trips to the plate against the Phils to boost his mark to .276.

"I tried too hard to live up to all that publicity when I broke in last year," Lou said yesterday. "I came up this season as a failure—and with the pressure off, I suddenly found myself hitting again."

Just like every other rookie, Novikoff felt the world was cruel when he entered the majors. He thought everyone had been deceived and a single in five trips to the plate against the Phils to boost his mark to .276.

"Now everyone beat me just as well," Lou said. "Even the pitcher is more friendly. They're still as tough as they were last year."

Novikoff's batting average is now .276, a significant improvement from his previous .185.

Old Timers Will Take On Dodgers

The sun came out for a few minutes yesterday and Norman Dodge promptly announced that the Comopolitan Club's cigarette fund game was definitely "on" for Saturday night at Renfrew Park. It will start at 7:15 o'clock.

The clash between the Old Timers and Cal-Pied Dodgers which is for the purpose of raising money for the boys overseas had been originally arranged for last Saturday, but weather conditions forced a postponement.

The game will get an official send-off by Lieut.-Col. E. Brown, M.M. E.D. garrison commandant, Wing Commander Webber, officer commanding No. 3 Mainwing Depot and Lieut. George Crawford, officer commanding Edmonton Station, R.C.N.V.R.

There will also be a military band in attendance.

Frank Dawson, Adam Esch and John Podersky will officiate as umpires and the senior league will make the umpire to handle affairs behind the plate.

Pat O'Hunter, trainer-de-luxe, has volunteered his services and will be on hand for catching and plenty of opposition from the players collected by Norman Dodge for the Old Timers.

Cliff Robinson and Ed McHugh will be on hand for catching and plenty of opposition from the players collected by Norman Dodge for the Old Timers.

Junior Ball Game Tonight Argentine Tennis Star To Play Here

Canadians will oppose Henry Singer's squad in tonight's Junior Baseball League game at Renfrew Park which starts at 7 o'clock.

Three teams met in the Junior league opener and Singer came out on top. That has been the Canadian side's lot during the season, and they no doubt will be out to square accounts with the league leaders tonight.

## WARTIME RESTRICTIONS NECESSITATE PLAN

# Bus Companies Offer To Cut Mileage Alberta Lines

## Action Will Conserve Rubber, Gasoline Used On Provincial Routes

Several bus companies operating over about 50 routes in Alberta have already submitted plans for the voluntary reduction of bus mileage to the Provincial Highway Traffic Board, it was reported here Thursday.

## Presumed Killed

The voluntary plan is being offered as a means of co-operating with the federal and provincial governments in the conservation of gasoline and rubber. It is expected that several more bus firms will make their submissions to the board before the end of June, the deadline set for such reports at a conference held here recently.

At the Edmonton conference the board discussed with operators a proposed 25 per cent reduction of mileage operated by buses in Alberta. Present daily mileage for all companies is about 10,000.

## Excess Profits Will Be Probed Referees Board

To set standards for excess profits of business firms in Northern Alberta, a board of referees has been set up by H. Harrison, of the supreme court of New Brunswick, arrived in Edmonton Thursday to hold sittings here.

The board, which will hear 15 applications from Edmonton and district firms, consists of Mr. Justice Harrison, K. W. Dalglish, Montreal chartered accountant, C. P. Hall, Toronto, investment broker, and T. N. Kirby, C.A., Ottawa, secretary to the board.

Excess profits are usually assessed on the difference between the profit in the taxation year, and the average profit of the three years 1936 to 1938, but in the case of businesses that were depressed during these years making little or no profit, or operating at a loss, it would be made up by use of this method of setting the excess profit, according to a board member.

## City Airman Now Presumed Killed

Missing since an air raid over enemy territory last November, Flight Sergeant James Francis Hazlett of this city is now presumed to have been killed, it is announced in an R.C.A.F. casualty list issued Thursday.

A well-known city athlete, Flt. Sgt. Hazlett is the son of former Alameda George W. Hazlett of 1111 81 avenue, well known Edmonton merchant and officer of the Retail Merchants Association. A sister of the airman, Mrs. Trevor King, of Evansburg, was formerly a member of The Bulletin editorial staff.

Flt. Sgt. Hazlett was born in Edmonton and attended Garraux school. He took an active part in golf and basketball play.

He was graduated from the Monckton, N.B. air training school.

## Accident Victim Funeral Friday

Funeral services for Ronald Ouedin, 11204 10th avenue, who died in an Edmonton hospital, following an accident at Canada Packers plant Wednesday, will be held Friday at 10 a.m. at St. Edmund's church. Rev. R. B. Woodhouse will officiate. Mr. Ouedin is survived by his wife, two daughters and a son, Louis, Margaret and Doreen, all at home. He is buried in the Vegreville cemetery. Connelly & McKinley are in charge of funeral arrangements.

## Sale of Reserved Seats Now On!

At the Box Office, Empire Theatre  
\$5.00 — \$3.50 — \$2.00

## Celebrity Parade Here Soon

"Why, I've seen some of those over England!" Anna Neagle, British film actress, tells Air Cadet Colin Boserup as they examine a Messerschmitt 110 model at Air Cadet League headquarters in Ottawa. With them is Producer Herbert Wilcox. Miss Neagle is co-operating with Air Marshal W. A. Bishop, V.C., D.S.O., M.C., honorary president of the League, and Herbert Wilcox to produce a series of performances of a production entitled "Celebrity Parade" in nine principal cities of Canada. All proceeds will go to the "Air Marshal Bishop Fund" for the Air Cadet League of Canada. "Celebrity Parade" will play at the Empire Theatre, Edmonton, Saturday night, June 27. Reserved seats are now on sale at the box office.

## Independents' Executive To Be Selected

Personnel of the full executive of the Edmonton constituency branch of the Independent Citizens' Association of Alberta will be selected at a meeting at the Corona hotel Thursday, July 5. It was decided at a meeting of independentists at the hotel Wednesday night.

J. Percy Page, M.L.A., Edmonton, president of the board, said that twenty-five additional persons were nominated at Wednesday's meeting, and as it was impossible to contact all nominees to ascertain whether they could be prepared to act on the executive, it was decided to table election of the personnel until July 9 meeting.

Officers of the Edmonton constituency branch of the association may also be elected at the meeting and a discussion will be held bearing upon the time and method of selecting a candidate to contest the forthcoming provincial by-election. The by-election will be held in the 15th ward in the Alberta legislature caused by the death of D. M. Duggan, M.L.A., Edmonton, Independent.

## Missing Girl, 16, Object Of Search

The city children's aid department is seeking information that may lead to the locating of Margaret Braden, 16, who has been missing from her home for several days.

The girl is 16 years of age, well built, dark brown eyes and dark curly hair, and when last seen it was reported she was wearing a blue dress and carrying a small bag.

Anyone knowing of the girl whereabouts is asked to communicate with her mother at phone 27871.

## Many Attend Meet Cultural Society

Sixty-five persons attended a meeting of the Edmonton Society for the Development of Culture in the Memorial Hall, Wednesday evening, Mrs. William Rovers presided in the absence of the president, Harold L. Weir. Led by the University of Alberta extension department, a number of films of famous musical artists were presented. Those who came from Geneva, Switzerland, in 1938, spoke to the meeting of his native land, and answered questions presented by the audience.

BUDGET PLAN AVAILABLE ON ALL REPAIRS

## On War Committee Budget Causes "Pay As You Go" Procedure Here

Assurances were given that most Edmontonians, along with other Canadians, will have considerably fewer sleepless nights during March, 1943, with the release of the budget on Tuesday night.

Since the income tax will be taken off "at the source," every man and woman of "necessity" will be able to pay his or her tax "as you go," and will be spared the large problem of trying next March to find out how much income tax is payable and, second, how to round up the funds for payment of it. The taxpayer can face the problem "here and now." That what comfort you can from that.

LUXURIES HIT

Hardest hit item under the new budget is luxuries, and most people were agreeable to that. Few people tried to "beat the gun" by rushing to tobacco and liquor stores to stock up.

Meat is the largest single item in brewing costs and the boost of four cents, from 12 to 16 cents a pound, will mean higher prices for the consumer. The tax on liquor for the manufacturers, the selling organizations and the Dominion.

The addition of two per cent in the tax imposed on life and fire insurance premiums represents a tax on the companies, not on the policyholders. The increased tax is retroactive to July 1, 1941, and will not mean that people who now hold policies will be obliged to pay the tax.

## Getting Around with Jack DeLong

First prize for the brightest saying of the year goes to the Edmonton resident who scanned the Baily Buzzer and then exclaimed:

"I'll vote for the party that puts a ceiling over taxes."

There's one thing about the income tax setup that won't jump universal approval as far as we could learn. That's the decision of the government to lump defence and income taxes and compulsory savings together and collect it all in one lump sum.

It will be a sufficient strain on the mental facilities of the average person to note the amount of his tax payments without being hounded by several different taxes.

At the same time, funny how times can change. If you had thought of a lot of people just three short years ago they would be paying a few hundred bucks income tax. The laughter would have been loud and long.

## Revenue Of A.G.T. Higher During May

Collections for the Alberta Government Telephones for May totalled \$17,700, according to statistics contained in the A.G.T. June issue of its magazine, "Alberta Call." This is an increase in collections for May this year of more than \$11,000 as compared to the corresponding month last year.

Edmonton bank clearings for the week ending June 24 totalled \$10,567. Clearings for the corresponding week of 1941 were \$4,650,106.

## McCauley Concert Group, Ross Creek

Members of the McCauley Concert Group of Edmonton will give a concert and dance on Friday at Ross Creek, eight miles north of Edmonton. The concert will be held in the McKenna district hall. All residents of Chipman, Vegreville and Tofield have been invited to attend the affair in aid of the Queen's Canadian Fund for Air Raid Victims. The concert planned for last Friday night at Hobbins was cancelled because of bad weather.

## Two More Men Are Arrested 'Moral' Charges

Two more men appeared before Police Magistrate A. L. Miller, K.C., facing charges of committing gross immoral acts, to bring the total of men arrested since R.C.M.P. and city police broke up a police commenced investigation, to seven.

J. Ed. Haff, formerly of Edmonton, and now resident of Jasper, Alta., appeared in city police court Thursday morning facing a charge of contributing to the delinquency of a juvenile, and another charge of gross indecency.

Richard Nevill Dick, 3042 103A avenue, appeared before Magistrate Miller Wednesday afternoon charged with committing an indecent act. Both had their cases adjourned until June 28, when it is expected that the court will be satisfied with the preliminary hearings.

Ball for Dick was set at \$3,000, and for Haff at \$4,000.

Five other men previously arrested have been committed to trial at the next sitting of the supreme court, facing varied moral charges.

## The Inquiring Reporter

Gloomy news from the different war fronts prompted the inquiring reporter to ask the question on its effect upon the political leaders in Britain and other United Nations countries.

THE ANSWERS

HARVEY THOMPSON, salesman: No reason to be concerned. I am thoroughly aroused over the fall of Tobruk, and are not going to allow this latter pill without a full explanation from their leadership. The press of Britain is full of demands to know why the reverse followed so rapidly on the confident reports that the reverses were going well for our side. Churchill is not a patient man, planning to do when he returns from the United States, but I am confident he will weather this storm.

PERCY GRAHAM, laborer: While the defeat in Libya is most depressing, it would be useless to charge leaders because of it. To me, the only reason for our playing right into Hitler's hands is our propaganda machine. We are opportunistically playing easy to the few neutral nations that disunity exists in Britain.

LEN LONDON, salesman: The defeat in Libya is a major setback that can only be overcome by giving the British the fighting forces sufficient personnel and the machines of war to cope with Hitler's army. If there was less squabbling concerning the actions of the political leaders, and more aggressive action by the citizenry to supply hand-cuffs to the politicians, the defeat might give place to a "We will win the war" spirit.

## Farmer Is Awarded Damages Of \$564

Damages totalling \$564.20 were awarded by a supreme court jury to John McEwen, a local politician, farmer, against Dr. C. Levee, Lae La Roche, in a five to one decision. The jury found that the doctor was negligent in leaving a place in a gauge in Mr. McEwen's abdomen following an operation for appendicitis.

A. Bruce Steinhilber, K.C., and Percy G. Davies, K.C., acted for the plaintiff and George H. Steer, K.C., and Ronald Marland for the defendant.

## Airman Is Missing On Active Service

Flt. Sgt. Thomas Templeman, formerly of 728 102 avenue, is reported missing following air operations over the enemy. It is announced in a casualty list issued Thursday.

Set. E. V. Connelley, St. John's, is also listed as missing.

## Military Orders

Orders for the purchase of military uniforms and equipment are being issued by the War Department. The purchase of military uniforms and equipment is being issued by the War Department.

## SPORT PULLOVER SWEATERS

## Inspection After Shipwreck Proves Gloves Couldn't Take It

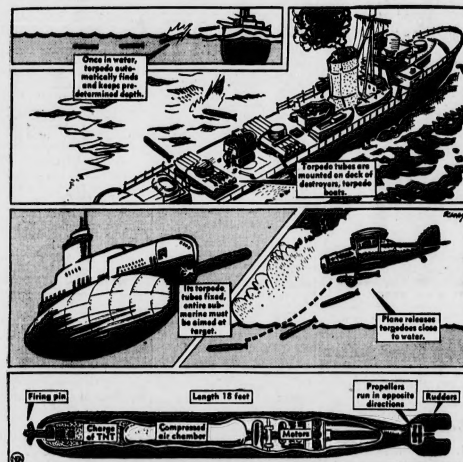

This sailor gets a lot of laughs out of his buddies when he shows what a ducking in the sea did to his gloves. When he was rescued from the water after his ship had been sunk, he found his gloves, which were in his pocket, had been shrunk to a shadow of their former selves. They were small by comparison with the buttons. He is here seen showing them to some of his fellow-seamen.

## Tire Tower

Lots of help in fighting the Axis is represented by sky-high pile of old tires gathered as Los Angeles opened reclaimable rubber drive.

Submarines, scourge of the sealanes, continue to take heavy toll of United Nations' shipping. Their chief weapon is the self-propelling torpedo, packing death and destruction in its TNT-filled firing head. Capable of 45 knots an hour, aimed effectively from a full mile's distance, the torpedo will rip through the most modern ship's armor, piercing even double and triple hulls. Resulting explosion tears gaping holes, usually sets craft afire. Airplanes, destroyers and torpedo boats also use torpedoes with devastating effect. Gyroscopes keep torpedoes on true course; horizontal rudders keep them at set depth. Diagrams show construction of torpedo and firing methods.

## Churchill Discusses Second Front In Washington

Prime Minister Churchill came to Washington again for the second time in six months. He and President Roosevelt conferred on "the war, the conduct of the war and the winning of the war." Since Mr. Churchill last visited Washington, Britain has signed a 20-year mutual assistance pact with Russia and the Soviet's Foreign Commissar Molotov has conferred with President Roosevelt, shown here presenting the Distinguished Service Medal to Rear-Admiral William S. Standley, the new U.S. ambassador to Russia.

## Seven Saved After Seven Days

After looking death in the face for a full week as they drifted on a tiny raft in the Caribbean, seven crew members of a torpedoed Panamanian merchantman are rescued by a U.S. naval patrol plane.

## Tough Aussie

Laurie Godfrey, 3, leaves Sydney for an Australian country town; carries toy pistol, wears air force cap, service pants, knapsack.
